ABOUT ME

With over three years of professional experience as a 3D architectural visualizer, I have honed my skills in translating creative concepts into visually compelling designs. During this time, I had the privilege of leading and supervising projects, which not only refined my technical abilities but also enhanced my project management and teamwork skills. In addition to my keen interest in 3D modelling and art, I hold a strong passion for software development and design. I am actively working towards professional growth in these fields as part of my future career aspirations.

WORK EXPERIENCE

Lead 3D Architectural visualizer at Bosnia Bayti

Feb 2020 - Sep 2023

At my previous company, I played a crucial role in establishing and spearheading the architecture department, leading the formation of a dedicated team, overseeing the successful execution of projects, as well as actively contributing to management's exploration of new ideas and ventures.
